Message from the Editor-in-Chief

Future Internet is a fast-growing journal devoted to rapid publications of the latest results in the general areas of computer networking/communications and information systems, with a focus on the Internet of Things, big data and augmented intelligence, smart systems (in terms of technologies, architectures, and applications), network virtualization, edge/fog computing, and cybersecurity. Both theoretical and experimental papers are welcome. Every year, *Future Internet* also features Special Issues dedicated to specific topics within the journal's scope.

Editor-in-Chief

Prof. Dr. Gianluigi Ferrari

Aims

Future Internet (ISSN 1999-5903) publishes regular research papers, reviews and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. Therefore, there is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Scope

- Advanced communications network infrastructures
- Evolution of Internet basic services
- Internet of Things
- Industrial internet
- Centralized and distributed data centers
- Embedded computing
- Cloud computing
- Software defined network functions and network virtualization
- Cloud-let and fog-computing
- Cyber-physical systems
- Network and distributed operating systems
- Smart city
- Artificial and augmented intelligence
- Smart systems and applications
- Net-living human factors and quality of life enhancement
- Human-computer interaction and usability
- Cyber security compliance
- Quality of experience
- Big data, open data, and analytical tools

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2024 Impact Factor: 3.6

(*Journal Citation Reports* - Clarivate, 2025)

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Journal Rank

JCR - Q2 (Computer Science, Information Systems) / CiteScore - Q1 (Computer Networks and Communications)

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), Ei Compendex, dblp, Inspec, and other databases

Rapid Publication

A first decision is provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2025)
