Message from the Editor-in-Chief

Sinusitis is an international, peer-reviewed, open access journal, which supports the whole field of sinusitis and its related areas, with the aim to bridge the gap between medical research and clinical practice about sinusitis. The journal is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance, thus allowing the scientific community and the public to have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Dr. Eleonora Nucera

Associate Editor

Dr. Alfonso del Cuvillo

Aims

Sinusitis (ISSN 2673-351X) is an international, peer-reviewed, open access journal published irregularly online by MDPI. The journal aims to publish original research articles, reviews, short communications and case reports on clinical and veterinary research, epidemiological and public health studies, and translational science relevant to sinusitis and asthma, their causes and complications, and the relationships between both diseases, contributing to our understanding of the close link between the upper and lower respiratory airways.

Scope

- Prevention, diagnosis, and management of rhinosinusitis and of asthma with an emphasis on their relationship
- Causes: immune dysfunction, infection, allergies, air pollution, structural problems
- Chronic and acute sinusitis and its impact on asthma
- Sinusitis related to tumors, smoking, cystic fibrosis, systemic diseases.
- Sinusitis complications: eye infections, ear infections, osteomyelitis, Pott's puffy tumor
- Pathophysiology and pathogenesis of sinusitis and asthma, especially their relationship
- Epidemiological studies on rhinosinusitis and asthma
- Molecular genetics
- Pharmacology
- Clinical symptoms and therapeutics
- New diagnostic tools and techniques
- Viral, fungal and bacterial infections
- Veterinary sciences

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 36.7 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025)
