Message from the Editor-in-Chief

Pediatric Reports (PR) journal is a publishing platform for all topics concerning pediatrics, from basic research to bedside care. We aim at targeting a composite audience, from the experienced pediatricians to young residents and fellows. Contributions coming from different geographic areas may witness what happens in the pediatric professional field in environment with different resources, in different subspecialties. Clinical observation of unusual cases will find their tribune, as well as trial reports and results of research related to diseases which may represent frequent or rare events faced by Pediatricians. Rapid turnaround time will offer the opportunity to make immediately available, on a fully open-access, the results described in the paper, to all the community. We look forward to continue the work done in the past years by *Pediatric Reports*, but also to make the journal grow according to changing expectations and attitudes of both, clinicians and researchers who work for a more effective pediatric care.

Editor-in-Chief

Dr. Maurizio Aricò

Aims

The aim of *Pediatric Reports* (ISSN 2036-7503) is to provide to specialists involved in clinical practice, clinical and basic research, a forum for sharing the results of their research. The journal covers all aspects of pediatrics, including subspecialties but also epidemiology and social issues related to public medicine for children and adolescents. We encourage authors to submit original articles, reviews, short communications, and correspondence on all relevant themes and topics.

Scope

- Adolescent Medicine
- Child and Adolescent Psychiatry
- Pediatric Immunology
- Pediatric Emergency Care
- Pediatric Critical Care
- Pediatric Pulmonology
- Pediatric Rheumatology
- Pediatric Infectious Diseases
- Pediatric Otolaryngology
- Pediatric Surgery
- Preventive Pediatrics and Epidemiology
- Pediatric Gastroenterology, Hepatology and Nutrition
