Message from the Editor-in-Chief

Key advances in public and environmental health research play a critical role for informed policy making. On this note, *IJERPH* provides a high-quality and respected forum for publication and discussion of knowledge in public health. Addressing the environmental and public health challenges of today requires deep engagement and collaboration among multi-disciplinary groups of public health researchers, clinicians, social scientists, government, non-government and civil society organisations, and, importantly, members of key affected population groups.

As such, I am writing to invite you to submit either an empirical or theoretical research paper for consideration in *IJERPH*, a Q1 public health journal in Scopus.

Aims

IJERPH (ISSN 1660-4601) is a peer-reviewed, transdisciplinary journal focused on publishing content related to health promotion and disease prevention.

IJERPH aims to bring together all scientific communities from various disciplines that address health promotion, wellbeing and improvement of quality of life. We strive to broaden the perception of Public Health to encompass all aspects of biological, social, environmental, and behavioral determinants of health, shifting the focus beyond traditional boundaries.
