Journal Information

Lights is an international, peer-reviewed, open access journal on optics, light and luminescent sciences and technology; it is published quarterly online by MDPI.

Aims

Lights is an international, peer-reviewed journal dedicated to advancing our understanding and application of optics, particularly with regard to lights, luminescent sciences and technology. It publishes reviews, regular research papers, and communications.

Our aim is to provide a comprehensive platform for researchers to exchange ideas, share discoveries, and advance the state of the art in the technology and design of lighting.

Scope

- Light generation
- Light sources and applications
- Light control and measurement
- Human responses to light
- Lighting design
- Daylighting, energy efficiency and sustainability
- Light pollution research
- Synthesis and characterization of luminescent materials
- Applications of luminescent materials
- New technologies for the fabrication of luminescent materials
- Luminescent functional materials
- Imaging and sensing of luminescent materials
- Night vision technology
- Light-emitting diodes
- Artificial light

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

First decisions in 19 days; acceptance to publication in 4 days (median values for MDPI journals in the first half of 2025)
