Message from the Editor-in-Chief

Journal of Eye Movement Research (JEMR) is an international, peer-reviewed, open access journal on all aspects of oculomotor functioning including methodology of eye recording, neurophysiological and cognitive models, attention, reading, as well as applications in neurology, ergonomics, media research and other areas published bimonthly online by MDPI (from Volume 18, Issue 1, 2025).

Editor-in-Chief

Prof. Dr. Rudolf Groner

Aims

Journal of Eye Movement Research (ISSN 1995-8692) is an international, open access journal on all aspects of oculomotor functioning. It publishes reviews, regular research papers (articles) and short communications. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. Full experimental details must be provided so that the results can be independently reproduced. Electronic files and software showing the full details of the calculation or experimental procedure, if unable to be published within the text, should be deposited as supplementary electronic material suitable for reuse.

Scope

It covers all classes of oculomotor functioning, including methodology of eye recording, neurophysiological and cognitive models, attention, reading, as well as applications in neurology, ergonomics, media research and other areas.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2024 Impact Factor: 2.8
