# Message from the Editor-in-Chief

Understanding the Earth's origin and its bio-geological evolution, the multiple implications of the geosciences (as a coherent set of interconnected disciplines), and the sociocultural and ethical interdisciplinary approaches, will be crucial for a better understanding of Nature, and also for undertaking scientifically based political decisions.

We are committed to drive *Geosciences* to a position in which it is recognized for its high-quality, cutting-edge research and scientific influence, and strongly encourage and invite your participation and manuscripts.

---

## **Editor-in-Chief**

Prof. Dr. John C. Eichelberger

## **Aims**

*Geosciences* (ISSN 2076-3263) is an international, peer-reviewed open access journal, which publishes original papers, rapid communications, technical notes and review articles, and discussions about all interdisciplinary aspects of the Earth and Planetary Sciences. This comprises the solid earth, the atmosphere, the hydrosphere, and the biosphere, as well as related issues of planetary and space sciences. In addition, it provides a particular place, and an advanced forum, for contributions on Earth history, natural hazards, geology-related environmental problems and geoethics, reflecting the wide scope and societal, educational, cultural and, in general, human implications of the cross-cutting nature of the issues.

---

## Scope

- Mineralogy, Petrology and Geochemistry
- Stratigraphy, Sedimentology and Paleontology
- Geophysics, Tectonics and Geodynamics
- Meteorites and Planetary Sciences
- Mineral Deposits and Energy
- Geological Engineering
- Environment and Climate Change
- Geological History and Museology
- Medical and Forensic Geology
- Geoeducation, Geoethics and Social Issues

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### 2024 Impact Factor: 2.1

(*Journal Citation Reports* - Clarivate, 2025)

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Journal Rank

CiteScore - Q1 (General Earth and Planetary Sciences)

### Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), GeoRef, Astrophysics Data System, and other databases

### Rapid Publication

A first decision is provided to authors approximately 23.4 days after submission; acceptance to publication is undertaken in 3.9 days (median values for papers published in this journal in the first half of 2025)
